

Privacy Policy for Agile Chart Toolbelt

Last Updated: January 25, 2025

Overview

Agile Chart Toolbelt ("the App") is an Atlassian Forge application that provides advanced analytics and visualizations for agile teams in Jira Software. This privacy policy explains how we collect, use, and protect your information when you use our app.

Information We Collect

Data Accessed from Jira

The App accesses the following data from your Jira instance to provide its functionality:

- **Project Information:** Project names, keys, and metadata
- **Board Information:** Agile board configurations and settings
- **Sprint Data:** Sprint names, dates, goals, and status information
- **Issue Data:** Issue summaries, statuses, story points, and sprint assignments
- **Issue Change History:** Historical changes to issues for tracking scope changes
- **JQL Query Results:** Results from Jira Query Language searches for data analysis

Data We Store

- **App Configuration:** Your dashboard gadget settings (selected projects, boards, and display preferences)
- **No Personal Data:** We do not store any personal information, user credentials, or sensitive data

How We Use Your Information

The App uses your Jira data exclusively to:

1. **Generate Sankey Diagrams:** Visualize sprint scope changes and completion flows
2. **Create Sprint Analytics:** Analyze sprint performance and reliability trends
3. **Display Dashboard Gadgets:** Show charts and metrics on your Jira dashboards
4. **Improve User Experience:** Remember your configuration preferences

Data Processing and Storage

- **Local Processing:** All data analysis occurs within the Atlassian cloud infrastructure
- **No External Transmission:** Your Jira data is never transmitted outside of Atlassian's secure environment
- **Temporary Storage:** Configuration data is stored temporarily using Atlassian Forge's secure storage APIs
- **No Third-Party Access:** We do not share your data with any third-party services

Data Security

- **Atlassian Security:** The App runs on Atlassian's secure Forge platform, inheriting all Atlassian security measures
- **Encrypted Storage:** All data is encrypted in transit and at rest
- **Access Controls:** Data access is limited to the permissions explicitly granted by your Jira administrator
- **No Backdoors:** The App has no mechanisms to access data outside of the declared permissions

Your Rights and Controls

Data Access

- You have full control over which projects and boards the App can access
- You can revoke permissions at any time through Jira's app management interface

Data Deletion

- Uninstalling the App will remove all stored configuration data
- No residual data remains after app removal

Transparency

- All source code and functionality is transparent through the Forge platform
- You can review exactly what data the App accesses through Jira's permission system

Compliance

GDPR Compliance

- **Lawful Basis:** Processing is based on legitimate interests for providing the requested analytics service
- **Data Minimization:** We only access the minimum data necessary for functionality
- **Purpose Limitation:** Data is used solely for the stated analytics purposes
- **Right to Erasure:** Data is automatically deleted when the app is uninstalled

SOC 2 and Other Standards

- The App inherits Atlassian's compliance certifications including SOC 2, ISO 27001, and others
- All data processing occurs within Atlassian's certified infrastructure

Third-Party Services

The App does not integrate with or transmit data to any third-party services. All functionality is contained within the Atlassian ecosystem.

Children's Privacy

The App is designed for business use and is not intended for children under 13. We do not knowingly collect personal information from children.

Changes to This Policy

We may update this privacy policy from time to time. Any changes will be reflected in the "Last Updated" date above. Continued use of the App after changes constitutes acceptance of the updated policy.

Contact Information

For questions about this privacy policy or the App's data practices:

- **Developer:** Micah Stamper
- **GitHub Repository:** <https://github.com/mstamper01/agile-chart-toolbelt>
- **Support:** Please open an issue on the GitHub repository

Atlassian Marketplace

This App is distributed through the Atlassian Marketplace and is subject to Atlassian's terms of service and privacy policies in addition to this policy.

Note: This privacy policy is specific to the Agile Chart Toolbelt app. For information about Atlassian's data practices, please refer to Atlassian's Privacy Policy at <https://www.atlassian.com/legal/privacy-policy>.
